SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

 Nature of Operations – South Plains Financial, Inc. ("SPFI") is a Texas corporation and registered bank holding company that conducts its principal activities through its subsidiaries from offices located throughout Texas and Eastern New Mexico. Principal activities include commercial and retail banking, along with investment, trust, and mortgage services. The following were subsidiaries of SPFI as of September 30, 2024:
  <table cellpadding="0" cellspacing="0" style="font-family: 'Times New Roman'; font-size: 10pt; width: 100%; border-collapse: collapse; text-align: left; color: #000000;"> <tr> <td style="width: 50%; vertical-align: top;"> Wholly-Owned, Consolidated Subsidiaries: </td> <td style="width: 50%; vertical-align: top;"> </td> </tr> <tr> <td style="width: 50%; vertical-align: top; background-color: #CCEEFF;"> City Bank </td> <td style="width: 50%; vertical-align: top; background-color: #CCEEFF;"> Bank subsidiary </td> </tr> <tr> <td style="width: 50%; vertical-align: top;"> Ruidoso Retail, Inc. </td> <td style="width: 50%; vertical-align: top;"> Non-bank subsidiary </td> </tr> <tr> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> CB Provence, LLC </td> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> Non-bank subsidiary </td> </tr> <tr> <td style="width: 50%; vertical-align: top;"> CBT Brushy Creek, LLC </td> <td style="width: 50%; vertical-align: top;"> Non-bank subsidiary </td> </tr> <tr> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> CBT Properties, LLC </td> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> Non-bank subsidiary </td> </tr> <tr> <td style="width: 50%; vertical-align: top;"> Wholly-Owned, Equity Method Subsidiaries: </td> <td style="width: 50%; vertical-align: top;"> </td> </tr> <tr> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> South Plains Financial Capital Trusts ("SPFCT") III-V </td> <td style="width: 50%; vertical-align: top; background-color: rgb(204, 238, 255);"> Non-bank subsidiaries </td> </tr> </table>
  On April 1, 2023, SPFI entered into a Securities Purchase Agreement ("Agreement") with Alliant Insurance Services, Inc. ("Alliant"), providing for the sale of Windmark Insurance Agency, Inc. ("Windmark"), City Bank's wholly-owned subsidiary, through a sale of all of the outstanding shares of capital stock of Windmark to Alliant. The transaction was consummated on April 1, 2023. Pursuant to the terms and subject to the conditions of the Agreement, SPFI received an aggregate purchase price of $36.1 million in exchange for Windmark's common shares, representing a pre-tax gain of $33.0 million through the nine months ended September 30, 2023. This transaction did not meet the criteria for discontinued operations reporting.
  Basis of Presentation and Consolidation – The consolidated financial statements in this Quarterly Report on Form 10-Q for the three and nine months ended September 30, 2024 (this "Form 10-Q") include the accounts of SPFI and its wholly-owned consolidated subsidiaries (collectively referred to

as the "Company") identified above. All significant intercompany balances and transactions have been eliminated in consolidation.
  The interim consolidated financial statements in this Form 10-Q have not been audited by an independent registered public accounting firm, but in the opinion of management, reflect all adjustments necessary for a fair presentation of the Company's financial position, results of operations, and cash flows. All such adjustments were of a normal and recurring nature. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and with the instructions to Form 10-Q adopted by the U.S. Securities and Exchange Commission ("SEC"). Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements and should be read in conjunction with the Company's audited consolidated financial statements, and notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2023 <span style="color: rgb(0, 0, 0); font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; font-weight: 400; letter-spacing: normal; text-align: justify; text-indent: 0px; text-transform: none; word-spacing: 0px; white-space: normal; background-color: rgb(255, 255, 255); text-decoration-style: initial; text-decoration-color: initial; display: inline ! important; float: none;">as filed with the SEC on March 15, 2024 (the "2023 Annual Report on Form 10-K"). Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.
  Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Determination of the adequacy of the allowance for credit losses <span style="color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; font-weight: normal; letter-spacing: normal; text-align: justify; text-indent: 0px; text-transform: none; white-space: normal; word-spacing: 0px; text-decoration-style: initial; text-decoration-color: initial; display: inline ! important; float: none;">("ACL") is a material estimate that is particularly susceptible to significant change in the near term; the assumptions used in stock-based compensation, derivatives, mortgage servicing rights, and fair values of financial instruments can also involve significant management estimates.
   Recent Accounting Pronouncements – Updates to the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") are prescribed in Accounting Standards Updates ("ASUs"), which are not authoritative until incorporated into the ASC.

  ASU 2023-06, Disclosure Improvements: Codification Amendments in Response to the SEC's Disclosure Update and Simplification Initiative. The amendments in this ASU modify the disclosure or presentation requirements of a variety of Topics in the Codification. Certain of the amendments represent clarifications to, or technical corrections of the current requirements. Each amendment in the ASU will only become effective if the SEC removes the related disclosure or presentation requirement from its existing regulations by June 30, 2027. The amendments in this ASU are not expected to have a material impact on the results of operations or financial position.
  ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The amendments in this ASU require public entities to disclose information about reportable segments' significant expenses on an interim and annual basis. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have a material effect on the Company's financial statements.

 <div style="color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 13.3333px; font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; font-weight: 400; letter-spacing: normal; orphans: 2; text-indent: 0px; text-transform: none; widows: 2; word-spacing: 0px; -webkit-text-stroke-width: 0px; white-space: normal; background-color: rgb(255, 255, 255); text-decoration-thickness: initial; text-decoration-style: initial; text-decoration-color: initial; text-align: justify;">ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures. The amendments in this ASU are intended to improve the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. It also includes certain other amendments intended to improve the effectiveness of income tax disclosures. This ASU is effective for fiscal years beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have a material effect on the Company's financial statements.
  Subsequent Events – <span style="font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; letter-spacing: normal; text-align: justify; text-indent: 0px; white-space: normal; word-spacing: 0px; text-decoration-style: initial; text-decoration-color: initial; display: inline ! important; float: none;">The Company has evaluated subsequent events and transactions from September 30, 2024 through the date this Form 10-Q was filed with the SEC for potential recognition or disclosure as required by GAAP.

The amendments in this ASU are not expected to have a material impact on the results of operations or financial position.
  ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures. The amendments in this ASU require public entities to disclose information about reportable segments' significant expenses on an interim and annual basis. This ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024. The adoption of ASU 2023-07 is not expected to have a material effect on the Company's financial statements.

The amendments in this ASU are intended to improve the transparency of income tax disclosures by requiring consistent categories and greater disaggregation of information in the rate reconciliation and income taxes paid disaggregated by jurisdiction. It also includes certain other amendments intended to improve the effectiveness of income tax disclosures. This ASU is effective for fiscal years beginning after December 15, 2024. The adoption of ASU 2023-09 is not expected to have a material effect on the Company's financial statements. Subsequent Events – <span style="font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; letter-spacing: normal; text-align: justify; text-indent: 0px; white-space: normal; word-spacing: 0px; text-decoration-style: initial; text-decoration-color: initial; display: inline ! important; float: none;">The Company has evaluated subsequent events and transactions from September 30, 2024 through the date this Form 10-Q was filed with the SEC for potential recognition or disclosure as required by GAAP.

  There were 141 securities with an unrealized loss at September 30, 2024, generally due to increases in market rates. Management evaluates AFS securities in unrealized loss positions to determine whether the impairment is due to credit-related factors or non-credit related factors. Consideration is given to the extent to which the fair value is less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Company to retain its investment in the security for a period of time sufficient to allow for the anticipated recovery in fair value. Management does not have the intent to sell any of the securities in an unrealized loss position as there are adequate liquidity sources to meet expected and unexpected funding needs. The fair value of these securities is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Accordingly, as of September 30, 2024, management believes the unrealized loss positions detailed in the previous table are due to non-credit related factors, including changes in interest rates and other market conditions, and therefore no ACL or losses have been recognized or realized in the consolidated financial statements. <span style="color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 13.3333px; font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; font-weight: 400; letter-spacing: normal; text-align: justify; text-indent: 0px; text-transform: none; white-space: normal; word-spacing: 0px; background-color: rgb(255, 255, 255); text-decoration-style: initial; text-decoration-color: initial; display: inline !important; float: none;">The amortized cost, related gross unrealized gains and losses, allowance for credit losses, and estimated fair value of securities available for sale at the dates indicated follows (dollars in thousands)<span style="color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 13.3333px; font-style: normal; font-variant-ligatures: normal; font-variant-caps: normal; font-weight: 400; letter-spacing: normal; text-align: justify; text-indent: 0px; text-transform: none; white-space: normal; word-spacing: 0px; background-color: rgb(255, 255, 255); text-decoration-style: initial; text-decoration-color: initial; display: inline !important; float: none;">:

  <span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">The Company has certain lending policies, underwriting standards, and procedures in place that are designed to maximize loan income with an acceptable level of risk. Management reviews and approves these policies, underwriting standards, and procedures on a regular basis and makes changes as appropriate. Management receives frequent reports related to loan originations, quality, concentrations, delinquencies, non-performing, and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions, both by type of loan and geography. <span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">
  Commercial Real Estate – <span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">Underwriting standards have been designed to determine whether the borrower possesses sound business ethics and practices, evaluate current and projected cash flows to determine the ability of the borrower to repay their obligations as agreed and ensure appropriate collateral is obtained to secure the loan. Commercial real estate loans are underwritten primarily based on projected cash flows for income-producing properties and collateral values for non-income-producing properties. The repayment of these loans is generally dependent on the successful operation of the property securing the loans or the sale or refinancing of the property. Real estate loans may be adversely affected by conditions in the real estate markets or in the general economy. The properties securing the Company's real estate portfolio are diversified by type and geographic location. This diversity helps reduce the exposure to adverse economic events that affect any single market or industry.

  Commercial – General and Specialized – Commercial loans are underwritten after evaluating and understanding the borrower's ability to operate profitably. Underwriting standards have been designed to determine whether the borrower possesses sound business ethics and practices, evaluate current and projected cash flows to determine the ability of the borrower to repay their obligations, as agreed and ensure appropriate collateral is obtained to secure the loan. Commercial loans are primarily made based on the identified cash flows of the borrower and, secondarily, on the underlying collateral provided by the borrower. Most commercial loans are secured by the assets being financed or other business assets, such as real estate, accounts receivable, or inventory, and typically include personal guarantees. Owner-occupied real estate is included in commercial loans, as the repayment of these loans is generally dependent on the operations of the commercial borrower's business rather than on income-producing properties or the sale of the properties. Commercial loans are grouped into two distinct sub-categories: specialized and general. Commercial related segments that are considered "specialized" include agricultural production and real estate loans, energy loans, and finance, investment, and insurance loans. Commercial related segments that contain a broader diversity of borrowers, sub-industries, or serviced industries are grouped into the "general category." These include goods, services, restaurant & retail, construction, and other industries. <span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">Performance of these loans is subject to operating and cash flow results of the borrower, with risk in the volatility of operating results for particular industries.

 Consumer – <span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">Loans to consumers include 1-4 family residential loans, auto loans, and other loans for recreational vehicles or other purposes. The Company utilizes a computer-based credit scoring analysis to supplement its policies and procedures in underwriting consumer loans. The Company's loan policy addresses types of consumer loans that may be originated and the collateral, if secured, which must be perfected. The relatively smaller individual dollar amounts of consumer loans that are spread over numerous individual borrowers also minimizes the Company's risk. The Company generally requires mortgage title insurance and hazard insurance on 1-4 family residential loans. All consumer loans are generally dependent on the risk characteristics of the borrower's ability to repay the loan, a consideration of the debt to income ratio, employment and income stability, the loan-to-value ratio, and the age, condition and marketability of the collateral.
   Construction – Loans for residential construction are for single-family properties to developers, builders, or end-users. These loans are underwritten based on estimates of costs and completed value of the project. Funds are advanced based on estimated percentage of completion for the project. Performance of these loans is affected by economic conditions as well as the ability to control costs of the projects.

 The commercial real estate and construction categories comprise the Company's nonowner-occupied real estate loans. Total nonowner-occupied real estate loans were $1.22 billion at September 30, 2024, and $1.21 billion at December 31, 2023.
  The ACL for loans was $42.9 million at September 30, 2024, compared to $42.4 million at December 31, 2023. The ratio of ACL for loans to loans held for investment was 1.41% at September 30, 2024 and 1.41% at December 31, 2023.
 </div> <div>
 </div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">The following tables detail the activity in the ACL for loans for the periods indicated (dollars in thousands). Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.</div> <div>

justify; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt;">Credit Quality Indicators</div> <div style="text-align: justify;">
<span style="background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-
transform: none;"> The Company grades its loans on a thirteen-point grading scale. These grades fit in one of the following categories: (i) pass, (ii) special mention, (iii) substandard, (iv)
doubtful, or (v) loss. Loans categorized as loss are charged-off immediately. The grading of loans reflect a judgment by the Company about the risks of default associated with the loan. The
Company reviews the grades on loans as part of the Company’s on-going monitoring of the credit quality of the loan portfolio. These risk ratings are assigned based on relevant information about
the ability of the borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends,
among other factors.</div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">
 </div> <div style="text-align: justify; font-family: 'Times New Roman';
font-size: 10pt;">Pass loans have financial factors or nature of collateral that are considered reasonable credit risks in the normal course of lending and encompass several grades that are
assigned based on varying levels of risk, ranging from credits that are secured by cash or marketable securities, to watch credits which have all the characteristics of an acceptable credit risk
but warrant more than the normal level of monitoring.</div> <div>
 </div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">Special mention loans have
potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of repayment prospects for the loans at some future
date.</div> <div>
 </div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">Substandard loans are inadequately protected by the current net worth and paying
capacity of the borrower or by the collateral pledged, if any. These loans have a well-defined weakness or weaknesses that jeopardize collection and present the distinct possibility that some loss
will be sustained if the deficiencies are not corrected. A protracted workout on these credits is a distinct possibility. Prompt corrective action is therefore required to strengthen the Company’s
position, and/or to reduce exposure and to assure that adequate remedial measures are taken by the borrower. Credit exposure becomes more likely in such credits and a serious evaluation of the
secondary support to the credit is performed. Substandard loans can be accruing or can be nonaccrual depending on the circumstances of the individual loans.</div> <div>
 </div> <div
style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">Doubtful loans have all the weaknesses inherent in substandard loans with the added characteristics that the
weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions, and values highly questionable and improbable. All doubtful loans are on nonaccrual.</div>
<div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">
 </div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;"> In connection
with the review of the Company’s loan portfolio, management considers risk elements attributable to particular loan type or categories in assessing the quality of individual loans. The list of
loans to be analyzed for individual evaluation consists of non-accrual loans over $250 thousand with direct exposure. Interest income recognized using a cash-basis method on non-accrual loans for
the three and nine months ended September 30, 2024 and 2023 was not significant. In addition, the Company closely monitors substandard accruing loans over $1 million with direct exposure, and
past due accruing loans over $100 thousand for possible individual evaluation. All other loans will be evaluated collectively in designated pools unless a loss exposure has been identified.
Additional funds committed to be advanced on individually analyzed loans are not significant.</div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">
 </div>
<div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;"> <span style="font-weight: normal; font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-
variant: normal; text-transform: none;">The following tables reflect the amortized cost basis in loans held for investment by credit quality indicator and origination year at the dates indicated,
and related year-to-date gross charge-offs. Loans acquired are shown in the table by origination year, not merger date. The Company had an immaterial amount of revolving loans converted to term
loans at September 30, 2024 and December 31, 2023.</div> <div style="text-align: justify; font-family: 'Times New Roman'; font-size: 10pt;">

   <table cellpadding="0" cellspacing="0" class="DSPFListTable" style="font-family: 'Times New Roman', Times, serif; font-size: 10pt; width: 100%;"> <tr style="vertical-align: top;"> <td style="width: 36pt;"> </td> <td style="text-align: right; vertical-align: top; width: 10pt; font-style: normal;"> ⁽¹⁾ </td> <td style="text-align: left; vertical-align: top; width: auto;"> Includes $574 thousand in charged-off demand deposit overdrafts reported as 2023 originations.</td> </tr> </table> <span style="font-family: 'Times New Roman'; background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">
  <span style="font-family: 'Times New Roman'; background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">Occasionally, the Company modifies loans to borrowers in financial distress by providing principal forgiveness, term extensions, an other than insignificant payment delay, or interest rate reduction. When principal forgiveness is provided, the amount of forgiveness is charged-off against the allowance for credit losses. Typically, one type of concession, such as term extension, is granted initially. If the borrower continues to experience financial difficulty, another concession, such as principal forgiveness, may be granted. In some cases, the Company provides multiple types of concessions on one loan. For the loans included in the "combination" columns below, multiple types of modifications have been made on the same loan within the current reporting period. <span style="font-family: 'Times New Roman'; background-color: rgb(255, 255, 255); font-weight: normal; color: rgb(0, 0, 0); font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">
  The following tables present the amortized cost basis of loans at September 30, 2024 and 2023 that were both experiencing financial difficulty and modified during the periods indicated, by class and by type of modification. The percentage of the amortized cost basis of loans that were modified to borrowers in financial distress as compared to the amortized cost basis of each class of financing receivable is also presented below (dollars in thousands):

 The Company closely monitors the performance of loans that are modified to borrowers experiencing financial difficulty to understand the effectiveness of its modification efforts. The following presents the performance of such loans that have been modified in the last twelve months (dollars in thousands):

 (1) The $4.0 million provision for credit loss on the Consolidated Statement of Comprehensive Income (Loss) includes a $4.1 million provision for credit losses on loans and a $(50) thousand provision for off-balance sheet credit exposures for the nine months ended September 30, 2023.
  The increase in the provision for credit losses during the three months ended September 30, 2024, compared to the same period in 2023, was primarily due to a decrease of $1.3 million in specific reserves during the three months ended September 30, 2023. The provision increased during the nine months ended September 30, 2024, compared to the same period in 2023, mainly due to a larger growth in loans during the 2023 period compared to the 2024 period.</div> <div style="text-align: justify; font-weight: normal; font-family: 'Times New Roman'; font-size: 10pt; font-style: normal; font-variant: normal; text-transform: none;">
